THE UNIVERSITY OF BRITISH COLUMBIA

Introduction and Context

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Introduction and Context

UBC is undertaking a broad program of IT transformation on campus:

- maximize investments
- better utilize skills and talents of IT staff

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Introduction and Context

Assessment to identify and document the current situation, future requirements, and recommendations for change:

- immediate operational challenges
- management processes and practices
- technical assets, interactions and risks
- people focus

Introduction and Context

Significant cognitive dissonance:

- assessment discovery and recommendations
- new organization(s)
- remediation work identified
- significant projects in flight and completed

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

IT Assessment and Findings

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

IT Assessment

3 areas of investigation:

- Business analysis
- Applications inventory
- Infrastructure review

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Business Analysis

THE UNIVERSITY OF BRITISH COLUMBIA

Business Analysis

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Business Analysis

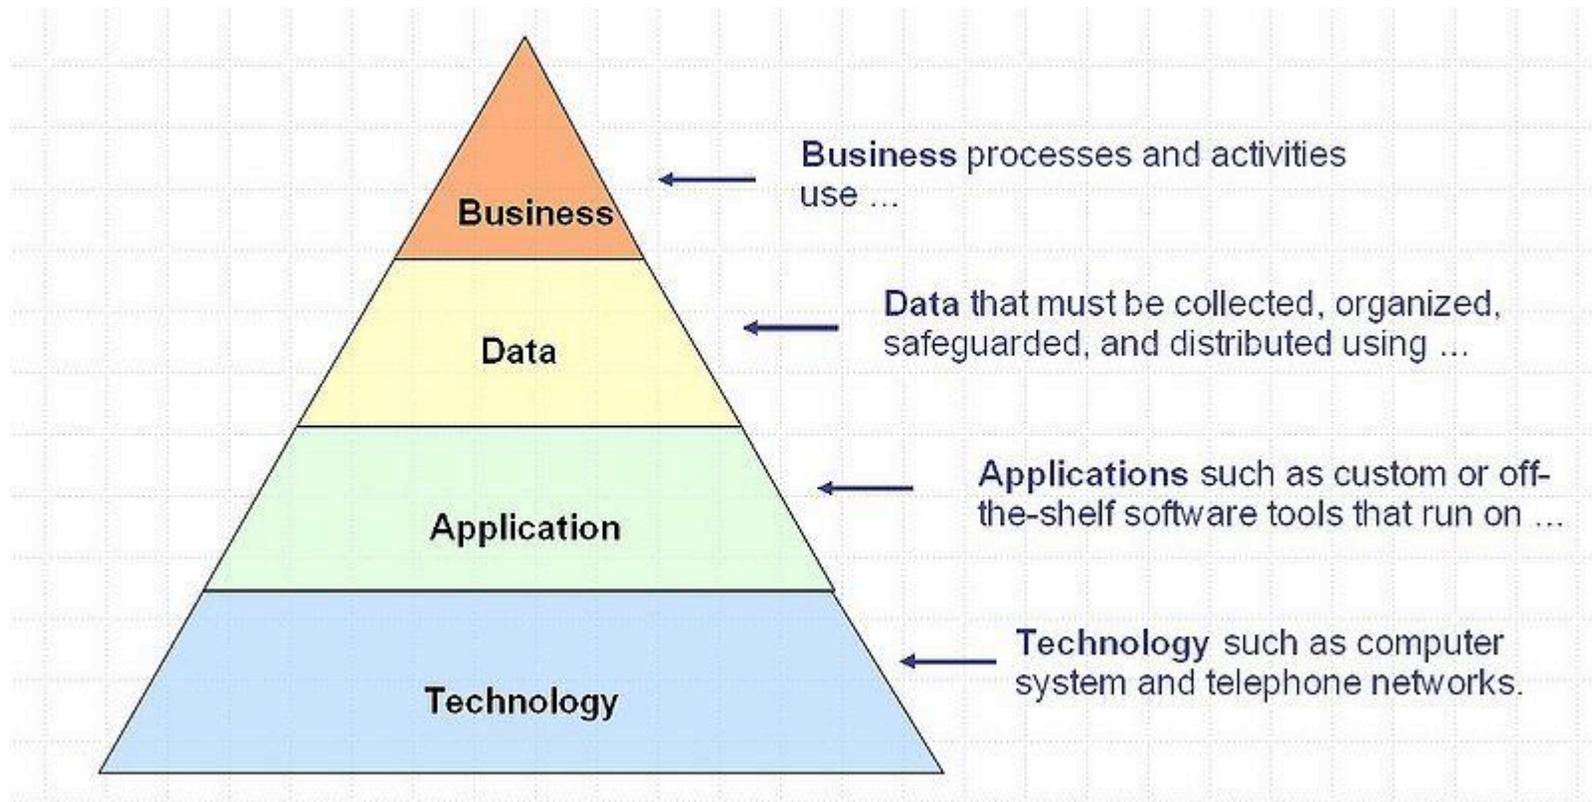

Informed by Enterprise Architecture principles:

- create strategy, vision and road maps
- define business capabilities
- establish IT governance

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Business Analysis

Ideally resulting in an alignment between
Library strategy and IT services.

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Business Analysis

Goals of the analysis:

- consult with staff
- generate capability map
- identify business functions

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Business Analysis

Staff consultation:

- 15 cross-functional meetings
- 8 branch and 2 campus consultations
- Total of 39 interview sessions

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Business Analysis

The capability map:

- describes an organization's potential
- represents an organization's functional abilities
- provides a framework for aligning strategies

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Business Analysis

An effective capability map:

- captures the business interest
- provides a stable view of the business
- can be used to link resources and activities

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Business Analysis

What does a capability map look like?

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Business Analysis

What does a capability map look like?

Our capability map employs a nine-box matrix.

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Business Analysis

What does a capability map look like?

Our capability map employs a nine-box matrix.

And conveniently slots into 3 categories:

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Business Analysis

Provide Access to Collections

Situate materials in collections
Enable discovery of materials
Develop and manage access policies
Enable and control access to materials
Retrieve and deliver materials

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Business Analysis

Assess and Maintain Collections

- Review materials and collections
- Assess material quality
- Evaluate material usage and access
- Deselect materials
- Renew, replace, preserve materials
- Maintain material descriptions

Applications Inventory

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Applications Inventory

Goals of the applications inventory:

- inventory
- visualizations
- process maps
- analysis

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Applications Inventory

Review parameters:

- end-user scope
- complexity
- lifecycle planning
- user and admin access
- personally identifiable information
- ...and 60 additional metrics

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Applications Inventory

Reviewed over 130 applications and mapped them to the capabilities:

Infrastructure Review

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Infrastructure Review

Goals of the review:

- hardware inventory
- application infrastructure
- security scan

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Infrastructure Review

Hardware inventory:

- 87 virtual servers
- 19 physical servers

- 400 staff desktops
- 700 public desktops

Infrastructure Review

Hardware inventory:

- staff storage and backup solutions
- staff and public desktop support
- classroom and labs support
- software license management
- printers
- network management

Infrastructure Review

Application infrastructure:

- lack of application management and deployment lifecycle
- databases and server infrastructure requires consolidation
- security patching required

Infrastructure Review

Security issues:

- identity and access management
- personally identifiable information
- firewall upgrades
- anti-virus for Mac
- need to upgrade several versions of PHP

Recommendations

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Recommendations

There are over 220 recommendations and the transition process will include further analysis and planning to implement them

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Recommendations

4 areas of focus:

- guiding principles and assumptions
- governance
- staff transfer & organization structure
- technical recommendations

a place of mind

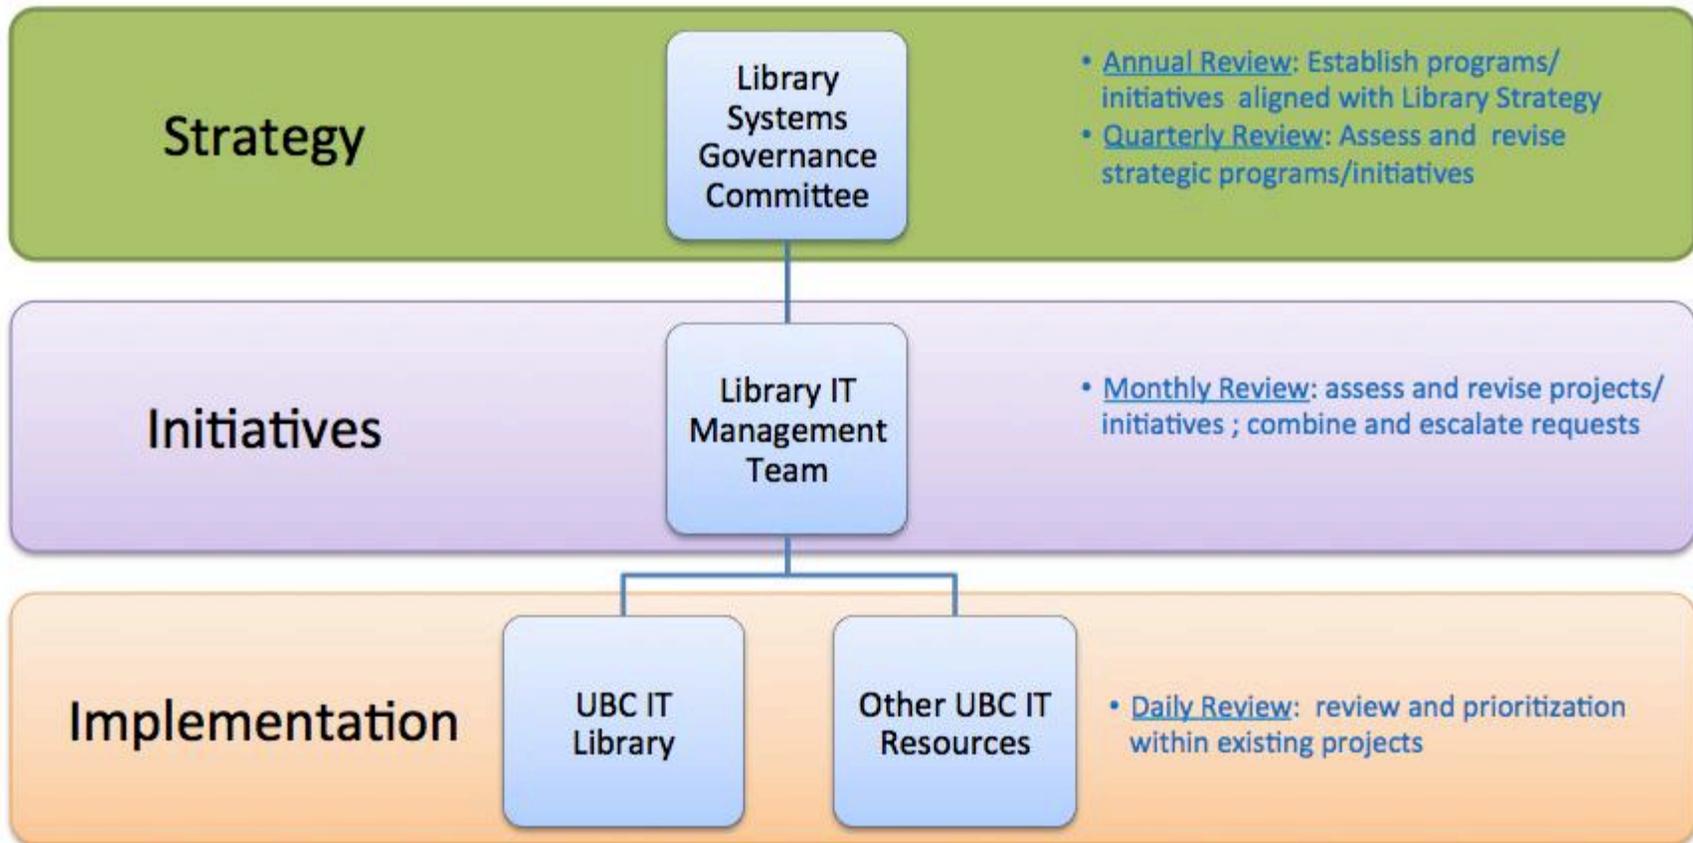

THE UNIVERSITY OF BRITISH COLUMBIA

Guiding Principles and Assumptions

- ongoing need to innovate, deploy, and integrate applications
- some roles dedicated to Library exclusively to increase responsiveness
- standard enterprise services used wherever possible to increase efficiency
- strong development practices to be efficient, innovative, and lower support costs

Governance

Staff Transfer & Organization Structure

- retention of existing Library services and support requirements, resources and processes (unless change is recommended)
- senior leadership for various IT disciplines and services
- career framework and development through connectivity with respective service areas
- existing enterprise processes and resources

Staff Transfer & Organization Structure

- Library IT Team connected to Senior Leadership in UBC IT
- UBC Vancouver and UBC Okanagan represented to leverage shared ideas and services

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Staff Transfer & Organization Structure

- Senior Manager UBC IT Library dotted-line relationship to AUL recognizes:
 - Priorities and funding come from the Library

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Staff Transfer & Organization Structure

- Systems Librarian dotted-line relationship to Enterprise Architecture recognizes:
 - Library has a continuing need for complex applications, data integrations and innovation
 - Library faces important issues that inform and influence UBC-wide solutions

Technical Recommendations

- allow the Library's resources to focus on its strategic Business Capabilities
- have an effective operations environment
- use the strong operations base to allow the Library to become more nimble and responsive
- minimize time and maximize return on investment for new initiatives

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Service Design and Process

a place of mind

THE UNIVERSITY OF BRITISH COLUMBIA

Service Design and Process

Improving collaboration and transparency in the creation of new services:

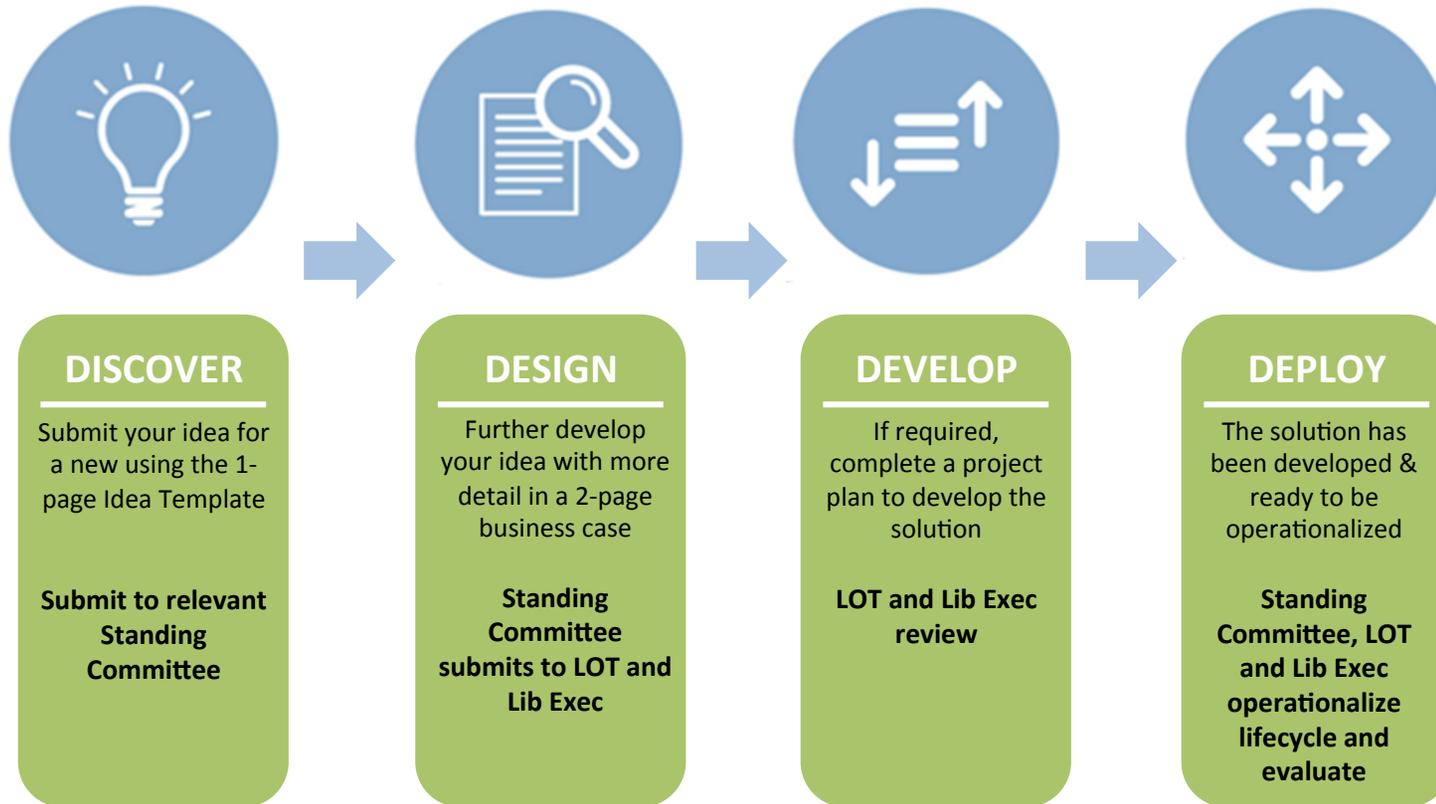

- sharing of ideas and expertise across the Library
- transparency in the decision-making process
- visibility of all initiatives underway
- alignment of decision-making process to our strategic objectives
- process for how ideas for new services are captured
- optimization of budgets and resources

a place of mind

DISCOVER

DESIGN

DEVELOP

DEPLOY

Idea
1 page

1. Clear description of the idea
 - what problem is it solving?
 - what opportunity is it realizing?
2. How will it help us achieve our strategy?
3. What will success look like?

DECISION CRITERIA

STANDING COMMITTEE

- Strategically relevant to the Library
- Request owner identified
- Cannot be done by existing services
- ID resources needed for next stage
- Approval to enter design stage

Business case
2 pages

1. ID features critical for success
2. ID solution options
3. ID project & support cost
 - scenarios
 - initial cost estimates
 - people & skillsets required
 - potential operational costs & funding model

DECISION CRITERIA

STANDING COMMITTEE, LOT & LIB EXEC

- Steering group is established
- High level task list created
- Smart goals & success measures
- Alternative solutions compared
- Promotion strategy considered
- Total cost of ownership, Benefits & ROI identified

Project plan

1. Clear description of the idea
 - what problem is it solving?
 - what opportunity is it realizing?
2. How will it help us achieve our strategy?
3. What will success look like?

Deployment plan

1. Change management
 - communication plan
 - training plan
2. Performance monitoring in place if relevant
3. Decommissioning of old systems / processes accounted for

DECISION CRITERIA

STANDING COMMITTEE, LOT & LIB EXEC

- Project is satisfactorily complete
- Communication & training underway
- Change plan being implemented
- Ongoing ownership is in place
- Ready to operationalize & deploy

Service is Operationalized

Any questions?
