

# Everyday Electronic Materials (EEMs)

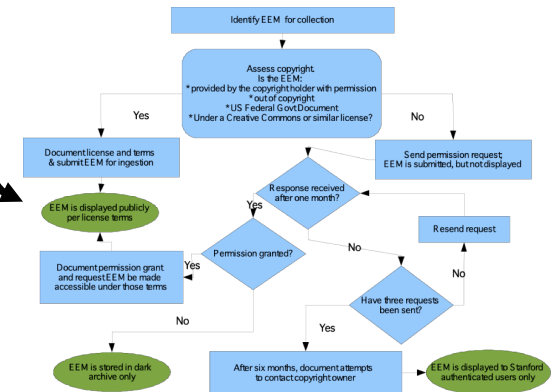

Web-based application provides “dashboard” for installing the widget and tracking EEMs

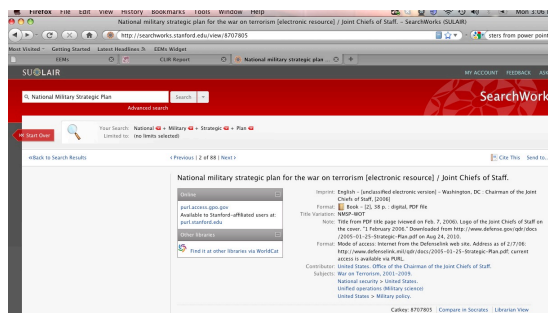

Launch widget “bookmarklet” to download PDFs found on the web or upload documents from the desktop

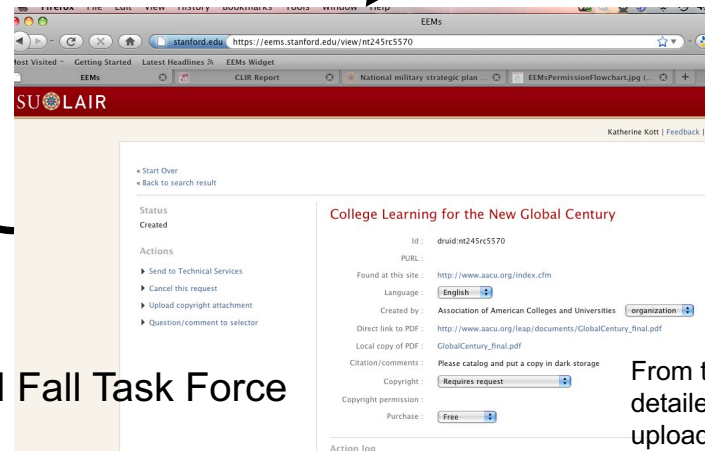

Send to Technical Services for Payment (if needed) and cataloging

Determine whether permission must be obtained

When the title is cataloged, it is available through SearchWorks and Socrates OPACs

From the dashboard's detailed view, selector may upload rights assertion documentation, or cancel the request

Workflow for collecting single digital objects: CNI Fall Task Force Meeting, December 12-13, 2010
