# Montana State Research Life Cycle

Adapted from the University of Central Florida  
<https://library.ucf.edu/wp-content/uploads/sites/5/2017/06/research-life-cycle.png>

## Planning & Proposal Development

- Finding funding opportunities, proposal development, submitting a proposal, individual development plans for retention, tenure and promotion.

## Preserve/Disseminate

- Data sharing, data curation, open access repositories

## Project Implementation & Leadership

- Technology, equipment and tools; data management and visualization; research integrity; managing teams and budgets; grants management; collaborating across disciplines; outreach and community engagement

## Measuring Impact/Putting into Practice

- Evaluation, outreach and community engagement

## Publication/Presentation

- Writing groups; where to publish; outreach/research impact; creating retention, tenure and promotion dossiers

## New Ideas

- Connecting faculty across disciplines, networking and ideation sessions, idea development

# Montana State University Research Alliance

The Research Alliance is a new consortium of units across campus that includes the [Office of Research Development](#), the [Center for Faculty Excellence](#), [Research Cyberinfrastructure](#), and the [Library](#) working together to support and increase the excellence of the university's research enterprise. We offer to connect you with services of the consortium and beyond that support your research and creative practice throughout the process.

Learn more by visiting [www.montana.edu/research-alliance](http://www.montana.edu/research-alliance)

## Help the Research Alliance help you!

Tell us what support you need throughout the research life cycle by scanning the QR code and completing the survey.

# Next Steps

- Speaking with Rebecca Bryant – OCLC
- Planning for Shared Space
- MOU regarding funding, layout, services
- Publicity, marketing, signage
- Assessment
- Phase 2
- Take-aways for other institutions
