LEADING: LIS Education And Data Science Integrated Network Group

- **Extending the Education Pipeline** by leveraging Drexel University’s data science curriculum and faculty expertise
- **Collaborating and Community Development** by bringing together educators, researchers, library leaders, frontline early- and mid-career information professionals, and doctoral students, who will collaborate and advance data science in LIS education and practice
- **Facilitating Diversity and Inclusivity** across the LEADING Fellowship Program in partnership with LEADING’s Diversity and Inclusivity Task Force
- **Building a Sustainable and Extensible Partnership** that enables a culture of mutual growth and continued sharing across the LEADING network
What does it look like to develop, grow and sustain early career information professionals?

- **Organization-sponsored programs** including the National Library of Medicine Fellows program and the Council on Library and Information Resources Postdoctoral fellow program
- **Federally-funded grant initiatives** such as LEADING
- **Association-supported programs** offered through ACRL, ALA, SAA and others
- **Library-sponsored programs** such as NC State University Library’s fellows program, UCLA’s Library Senior Fellows program
- **State Library programs** such as the California State Library’s Learn (CALL) program
- **LIS Professional education offerings** such as OCLC’s Webjunction and Library Juice Academy
How might we help libraries collaborate to innovate professional education that impacts recruitment, growth, and retention?
How will we explore this question and what can you do to help?

- Through online meetings in January 2024 we will **learn** more about our problem
- In February we will **work** on understanding the problem and **develop** possible solutions
- In March 2024 we will gather to refine our ideas and **present** possible future pathways
